

Vijaya Krishnani

Senior Business Analyst | Pharma & Fintech | Regulated Industries
vijaya24.krishnani@gmail.com | +91-9923795340 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Business Analyst with 11+ years across pharma, life sciences, fintech, and private equity. Led GxP validation of Microsoft Power Platform and 6 clinical applications in a Fortune 500 CRO under 21 CFR Part 11 and EU Annex 11, and documented process design for a high-impact RPA bot transition at a global pharma client. Consistent record of reducing audit findings and compressing approval cycles. Independently built ValDoc, a GxP validation document generator aligned to GAMP 5.

KEY ACHIEVEMENTS

- **Reduced audit findings by 40%** — led end-to-end CSV delivery across MS Power Platform and 6 GxP clinical applications in a regulated Fortune 500 CRO environment
- **Zero compliance gaps post-migration** — authored PDDs for 8 high-impact audit RPA bots transitioning from SAP ECC to SAP S/4HANA at a global pharma client
- **60% improvement in audit productivity and 35% error reduction** — owned BA delivery for a SOX robotic automation programme across 3 Fintech compliance workstreams
- **Approval cycles compressed from 15 to 5 days** — established structured sign-off protocol across QA, Compliance, and Clinical Operations in a regulated CRO
- **Evaluation time reduced 70%, decision cycles cut from 5 to 2.5 weeks** — delivered AI-powered idea intake platform serving 500+ monthly users as Product Owner
- **35% reduction in defect leakage and 25% fewer post-release defects** — 4-year embedded QE engagement at a Global Top-10 Private Equity firm
- **Retired 8 manual compliance controls and accelerated quarterly close by 4 days** — through automated process documentation in a Fortune 500 Fintech

CORE COMPETENCIES

Requirements & Analysis: PDD Authoring, Process Mapping, Gap Analysis, Regulatory Requirements Traceability, User Story Writing, Acceptance Criteria, UAT Coordination, Async Communication

Regulated Frameworks & Domains: GxP, CSV, 21 CFR Part 11, EU Annex 11, SOX, AML, GAMP 5, Fintech Compliance Automation, Data Governance, IQ/OQ/PQ Design Planning, Traceability Matrix

Agile & Delivery: Sprint Planning & Reviews, Backlog Refinement, Scrum Facilitation, Distributed Team Collaboration, Stakeholder Management, Risk & Dependency Management, Virtual Workshop Facilitation

Tools & Platforms: Jira, Confluence, Azure DevOps, Appian, UiPath, MS Power Platform, SQL, Postman, DocuSign, Slack/Teams, MS Copilot, Claude AI

Industries: Pharma, Life Sciences, CRO, Fintech, Private Equity, Banking, Network & Loan Origination Systems

PROFESSIONAL EXPERIENCE

Persistent Systems |

Oct 2014 – Present

Lead Business Analyst | Oct 2025 – Present

Global Regulated Pharma — Fortune 500, embedded (BA) | Jan 2026 – Present

- Structuring complex regulatory requirements across three delivery phases into business rules for a compliance automation engine on Gimmel — programme in active delivery with go-live targeted Q3 2026
- Owning end-to-end requirements backlog with traceability matrices mapped across all compliance requirements, ensuring zero-gap audit readiness at every phase gate
- Established structured QA / Regulatory / Dev sign-off protocol as primary BA interface — measurably reduced requirement ambiguity cycles across the delivery team
- Concurrently supporting SAP ECC to S/4HANA transition — authored PDDs for 8 high-impact audit RPA bots ensuring zero compliance gaps post-migration

Global CRO — Fixed Price Engagement, return engagement (Product Owner) | Oct 2025 – Dec 2025

- Owned the product backlog and delivered an AI-powered idea intake platform serving a global CRO with 500 + monthly users — reduced evaluation time by 70% and cut decision-making cycles from 5 to 2.5 weeks
- Reduced time-to-value from 12 to 7 weeks by driving lean MVP scoping and prioritisation with cross-functional stakeholders across product, engineering, and compliance teams

Sr. Quality Engineering Lead | Apr 2019 – Sep 2025

Global CRO — Fixed Price Engagement (Scrum Master & Validation Lead) | Mar 2025 – Sep 2025

- Led validation delivery across 12+ clinical applications against 21 CFR Part 11 and Annex 11 — programme reduced audit findings by 40%
- Facilitated scrum ceremonies across the validation team; coordinated sign-off across QA, Compliance, and Clinical Operations — reduced approval cycles from 15 to 5 days
- Defined IQ, OQ, and PQ execution sequencing and handoff criteria ensuring compliant progression through all qualification stages

Global Fintech — Fortune 500, Fixed Price Engagement (BA) | Oct 2024 – Feb 2025

- Owned end-to-end BA delivery for a SOX robotic automation programme across 3 compliance workstreams — drove 60% improvement in audit productivity and 35% error reduction
- Documented as-is and to-be process flows for automated controls, enabling the compliance team to retire 8 manual checks and accelerate quarterly close by 4 days

Global Life Sciences Leader — Fortune 500, Fixed Price Engagement (QE) | Apr 2024 – Sep 2024

- Led QE for an order entry platform transformation from legacy to Appian in a life sciences environment — reduced requirement clarification cycles by 40%
- Established risk-based QA strategy reducing defect escape rate 35% and improving sprint predictability 25% across distributed teams

Global Top-10 Private Equity Firm, embedded (QE) | Aug 2019 – Mar 2024

- 4-year embedded engagement supporting data governance and finance transformation — led QE across data lineage and compliance workstreams
- Managed stakeholder alignment across front office, finance, and compliance — reduced sign-off time by 30% through structured review cadences and traceability matrices

Quality Analyst | Jul 2014 – Jul 2019

Network Monitoring, Loan Origination & Management | Remote

- 5 years of QA delivery across network monitoring, loan origination, and loan management systems — built test strategies and executed across full software delivery lifecycles
- Supported 3 major releases with zero critical post-production defects across distributed remote teams

INDEPENDENT PORTFOLIO

ValDoc GxP Validation Document Generator | [Live Demo](#)

- Independently designed and built a full-lifecycle GxP validation document generator covering all 15 CSV document types across Analysis, Design, Testing, and Deployment phases
- Aligned to GAMP 5, 21 CFR Part 11, and EU Annex 11. Built using AI-assisted development. Demonstrates domain depth beyond execution — architecture of the complete CSV lifecycle

EDUCATION

Masters in Computer Applications | Nagpur University

2014

First Class with Distinction — 9.55 / 10
